FUTURE OF LOYALTY

How to
Set up an App
Publisher Account

Table of Contents

Register a New Google Developer Account

1 Create a Google Account, if you don't have one, by visiting:
https://accounts.google.com/signup/v2/webcreateaccount?hl=en-GB&flowName=G-lifWebSignIn&flowEntry=SignUp

2 Using your Google Account, sign up for a Developer Account by visiting:
https://play.google.com/apps/publish/signup

3 You will have to pay a one-time fee of $25 in order to complete your enrolment.

4 At the end, fill in the rest of the details of your account in the enrolment form.

5 Share your developer credentials with Liquid Barcodes. It's quite possible that Liquid Barcodes is not able to login using your credentials because of security checks put in place by Google. These checks prevent account access from any un-recognized systems. To go around it, you might have to authorize Liquid Barcodes login attempt from a warning mail that you receive from Google.

6 Alternatively, you can invite Liquid Barcodes. **To invite us:**

    1 Select "Users & Permissions" from left panel in "Developer Account" section.

    2 Click on "Invite New User" at right.

    3 Liquid Barcodes will provide email id as required.
    Please provide "Release manager" role.

Generate Google Maps API Key

1 Create Google Console account and associate it to your Google account:

> **1** Navigate to this link: https://cloud.google.com/maps-platform/

> **2** Log in with your Google Account

> **3** Click get started

> **4** Introduce billing information. The use is free of charge for our purposes, but Google requires to introduce billing info.

2 Visit the Google Cloud Platform
Console: https://cloud.google.com/console/google/maps-apis/overview

3 Click the project drop-down and create the project
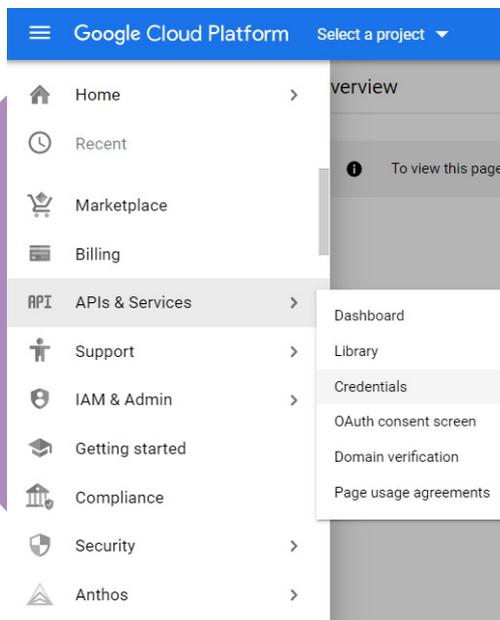

4 Click the menu button and select APIs & Services > Credentials

5 On the Credentials page, click Create credentials > API key.
The API key created dialog displays your newly created API key. Info to share with LB

6 Click Close.
The new API key is listed on the Credentials page under API keys.
(Remember to restrict the API key before using it in production).

Register a New Apple Developer Account

1 Create a new Apple Account, if you don't have one, by visiting :
https://appleid.apple.com/account#!&page=create

2 Using your Apple Account, sign up for a Developer Account by visiting:
https://idmsa.apple.com/IDMSWebAuth/signin?appIdKey=891b-d3417a7776362562d2197f89480a8547b108fd934911bcbea0110d-07f757&path=%2Fenroll%2F&rv=1

3 Sign in with your Apple Id and go through the enrolment process.

4 You will have to pay a yearly fee of 99 USD to complete your enrolment. Also, two factor authentications will have to be enabled. Make sure that you follow all the steps mentioned in the enrolment form. For details about 2 factor authentication, please go through: https://developer.apple.com/support/account/authentication/

5 Make sure that enroll as an organization and NOT as an individual. An Individual Account will prevent other developers from being invited and will result in a greater hassle than expected.

6 If you prefer visual instructions, please refer the video available at
